WORK EXPERIENCE

Mercedes-Benz USA — September 2021 – Present
Planning & Pricing Intern

- Prepared monthly volume and model group contribution reports for North America region.
- Assisted pricing specialists in regular audit of product level financial and vehicle pricing data in dealer management system.
- Updated and validated options pricing for upcoming model year using proprietary financial software and SAP based applications.
- Collaborated with data management specialist toward converting Tableau reports to PowerBI during overall departmental data migration.

Data Science and Analytics — August 2020 – August 2021
Freelancer

- Expedited payroll and expense accounting for healthcare clinic by connecting Google Form's submissions and Sheets, improving bookkeeping and financial controlling process.
- Created and maintained asynchronous web crawlers using Python to extract data from product catalogues and websites into standardized formats, enabling clients to develop and improve pricing models and databases.

Impact Fulfillment Services LLC, Burlington NC — June 2020 - August 2020
Cost Accounting Intern

- Collaborated with team to automate product costing cycle by implementing advanced Excel functions, Python scripts and Microsoft Power Automate. Created pipeline between Microsoft Forms, Microsoft Planner, and Excel, resulting in 30% improvement of turn times and overall reduction in manual errors.
- Tested and ensured functionality of factory equipment alongside Industrial Engineer. Recorded packaging times in Excel for input into labor costing model.
- Helped manage day-to-day production requests for packaging specifications and track outstanding material quotes using Excel.
